

Bob Smith — Data Engineer & Data Analyst Resume

Location: Brisbane, QLD **Email:** bob.smith@example.com **Phone:** 0400 000 000 **LinkedIn:** linkedin.com/in/bobsmith **GitHub:** github.com/bobsmith

Professional Summary

Results-driven **Data Engineer and Data Analyst** with 5+ years of experience designing scalable data pipelines, building analytics solutions, and transforming raw data into actionable insights. Skilled in **Python, SQL, Azure, ETL development, and dashboarding**. Adept at partnering with business stakeholders to deliver data products that improve decision-making and operational efficiency.

Core Skills

- **Data Engineering** — ETL/ELT pipelines, data modelling, orchestration
- **Data Analysis** — statistical analysis, reporting, insights
- **Cloud Platforms** — Azure Data Factory, Azure Synapse, AWS Redshift
- **Programming** — Python, SQL, PySpark
- **Visualization** — Power BI, Tableau
- **Databases** — PostgreSQL, SQL Server, Snowflake
- **Machine Learning** — scikit-learn, feature engineering

Professional Experience

Data Engineer / Data Analyst

TechNova Solutions — Brisbane, QLD 2022 – Present

- Designed and maintained **Azure-based ETL pipelines**, reducing data processing time by **40%**.
- Built automated **Power BI dashboards** used by 200+ internal users for operational reporting.
- Developed **Python** scripts for data cleansing, anomaly detection, and batch processing.
- Collaborated with product teams to define KPIs and deliver analytics for customer behaviour.
- Implemented **data quality frameworks**, improving data accuracy by **30%**.

Data Analyst

InsightWorks Analytics — Brisbane, QLD 2019 – 2022

- Conducted deep-dive analysis on sales, marketing, and operational datasets to uncover trends.
- Created SQL-based reporting solutions that reduced manual reporting by **15 hours/week**.
- Built predictive models (regression, clustering) to support strategic planning.
- Partnered with stakeholders to translate business questions into analytical solutions.

Education

Bachelor of Information Technology (Data Science) University of Queensland 2016 – 2019

Certifications

- **Microsoft Azure Data Engineer Associate (DP-203)**
- **Google Data Analytics Professional Certificate**
- **AWS Cloud Practitioner**

Projects

Customer Churn Prediction Model

- Built an end-to-end pipeline using **Python**, **scikit-learn**, and **Power BI**.
- Improved churn prediction accuracy to **87%**.

Real-Time Data Pipeline

- Implemented a streaming pipeline using **Azure Event Hub** + **Databricks**.
- Enabled near real-time analytics for operational dashboards.

Technical Stack

Languages: Python, SQL, R **Cloud:** Azure, AWS **Tools:** Power BI, Tableau, Git, Databricks
