Professional Summary

Cybersecurity Analyst with 4+ years of experience in SOC operations, threat detection, incident response, and vulnerability management. Skilled in SIEM monitoring, malware analysis, and security hardening across cloud and on-prem environments.

Core Skills

- **Threat Detection** — SIEM, IDS/IPS, log analysis
- **Incident Response** — triage, containment, remediation
- **Cloud Security** — Azure Security Center, AWS GuardDuty
- **Vulnerability Management** — Qualys, Nessus
- **Security Hardening** — Windows, Linux, network devices

Experience

Cybersecurity Analyst — SecureTech Solutions (2022–Present)

- Monitored SIEM alerts (Splunk, Sentinel) and reduced false positives by 30%.
- Led incident response for phishing, malware, and lateral movement events.
- Conducted weekly vulnerability scans and coordinated patching cycles.
- Implemented MFA rollout across 1,200 users.

SOC Analyst — InfoGuard (2020–2022)

- Investigated security events and escalated high-severity incidents.
- Performed malware sandboxing and IOC extraction.
- Supported threat hunting activities using MITRE ATT&CK.

Education

Bachelor of Cybersecurity — RMIT University
